What more could mortal do? Workerity and late all the time, was my ideal of the end of a Christian's life, and I worked hard,—very hard.

Sincere? Yes. Saved? Yes. Hard worker? Yes: and my ideal was reached in respect to the quantity of labor rendered. Then what lacked I? Quite a natural question when viewed from my standpoint.

And yet, in the face of years crowded with solid days of toil for the Master, here was the aforesald young lady seeling vidoos or dreaming.

with me as the central figure. Surely she must be mistaken, for I could not work harder—the limit of physical endurance had been reached.

About eight years after the Lord Jesus Christ had sanctified me for service, and had given me the blessing of a clean heart, one day while taking a retrospective glance at my career, and comparing my present (at that time) spiritual status with what it had here when the Lord first gives me the blessing, I could discover no progress. My sent was as great as ever, but progress in perceptible. My soul was lean; and why should it be lean; Where a soul is sarriest and chooset, the Hoy thoust will give light. Meeting over, the barrack lights are out, the people gone, and the hour is late. If the day seems ail too short for its duties, and retreechment of time must be made somewhere, oh, let not time he galacd for the day's crush of work by robbing God of the sweet hour of prayer, of that heaven-on-cart time, when melted by the fire of divine love, the soul loses itself and hows late God its Creator, Father, Saviour, Hushand—ALL; and becomes one with Him.

DIED AS HE LIVED.

We had often warsed a certain man to seek the pardon of his dus, but he mocked and said he was colder than we were, and could give us good advice, which was, not to make fools of ourselves and talk to people who knew more than we did. But week by week we warned him when we saw him, just the same. At itset when he saw us coming he would carry on like a clown for a little while to see what effect that would have on us; then he would have not payers. At times we feared god would atribe him dead while he was less than the wind the was to seek to see anyone. The Commandant ehose for his Bible lesson part of 2ad Luke: "There went forth a decree from Caesar Augastus that all the world should be taxed," etc.

No matter how familiar are the sentences, in our leader's handling they become luminous with new light. It was a significant fact, said the Commandant, that the Lord Jesus should come lust at that particular time when the world was to be taxed. It is just like Him, though. He comes when most needed. When we are taxed with temptation or worrywhen we feel the devil has almost got us under, it is then Ho comes to deliver. "It has been so with me," testified our leader.

Hallelujah. Another week's fight ended. The Lord has blessed us much in our own souls and rewarded is with nine souls for Salvation, and three for sunctification. Bless His name forever. A LETTER FROM SIR HENRY PARKES.

November 16th, 1834, Kenalworth, Annandale, Sydney

The Canadian "War Cry" has received the following from Sir Henry Parkes, generally acknowledged to be the greatest political genius of the Australian Colonies:—

My Dear Sir,—

Ny Dear Sir,—

I regard the Rev William Booth, Convent of the Reluction Army, as one of the less great meet of our age, that lecture conception and from held of the continuous his Divise Master. In this service has a displayed the strong, placific, insulmous intellect of a powerful moulder of moral forces, and a wonderful insight into the spring of human action. His idea of the "Salvation Army" could have arisen only in a truly great mind and from a sublime conce of the brotherhood of manihul I was a noble thought.

General Booth's view of thrist's work in the sating of sinners takes in the earthly needs of the poor and hungry, the officied and the faller, in their present let of orifiering. This is the great distinguishing feature of his tabors in the sight of the world.

A METHODIST MINISTER'S TESTIMONY.

TESTIMONY.

Dear Brother: "I am on a regular subscriber to your very excellent paper, the War Cry, but through the kindness of a brother fa the Army, I very often receive a copy, and no paper or book, other than the Bible, has been to me such a blessing. As I have read its pages my soul has been stirred to greater zeal, and sucrifice, in the great and glotious work, in which it is my joy and privilege to be singaged.

"May its pages speak with still greater power to poor, perishing

souls, and arouse those at 'case in Zion' to a sense of their danger and duty! During my three years' residence in this Province, I have not been privileged to see the Army very often; but enough to know that they are doing a grand work here. And my prayers and sympathies are with you, as with all who are endeavoring to rescue the perishing. I remember when the Army first opened lire on Greenspond, Newfound and. I was then a local preacher, and teacher of the Methedist publication there. And—I am almost mshamed to say it—I was by no means a friend to the Army then, as some of the officers who labored there must know. But since then, praise God. I have grown in grace. I have, praise Him, learned to love the Salvation Army, because of the grand work they are doing the world over. And I have been wonderfully heiped on this discouraging field by witnessing their herolsm, sell, and consecration to God. "Knowing many who labor in the Army, and regularly receive the Cry. A "War Cry" writer can, by giving two or three hours to literary laber, reach more people with the message of Shivation in a siggle issue of the War Cry, than he or she could reach in a whole month of ordinary meetin twhole month of ordinary meetings. Now then, comrade, selze that rusty pen, make a wild dash for the link and put wings to your thoughts before Old Father Time runs away with the opportunity.

OUR LEADER.

Before this WAR CRY is off the press, the Commandant will have gone West. The following, olipped from a letter Mrs. Booth cent to a Staff officer at Headquarterson a purely private sffair, will express more correctly than we can do the spirit in which our precious leaders live and

clave for the cause :—
"The Commandant, too, is very poorly.
Pray for us. It is difficult to walk, and Fray for us. It is difficult to walk, and a time, and act in the spirit of the Gospel, and to live the truth. We seek only the interests of our Master. Oh, for a greater, a deeper, a more perfect trust in God."

We can only add "God blees them,"

and believe that Ho will make both the Commandant and Mrs. Booth equal in every way to the enormone responsibility devolving upon them continually at the apex of this great organization.

ARMY SYMPATHY.

The Army has learned to "weep with those that weep," and accordingly when the news of the late Sir John Thompson's sudden decease arrived, the following message of condolence was wired to Lady Thompsou :-

From the Commandant's Office :

The Salvation Army in Canada mourns with you in the irrepa rable lose which you have susteined. May God support you in your hereavement.

COMMANDANT H. H. BOOTH.

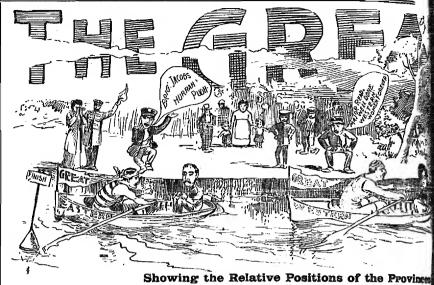

LADY THOMPSON'S REPLY. The following reply was received :-

Ottawa, Ont., Dec. 18.

TO COMMANDANT H. BOOTH:

Ledy Thompson desires me to convey to you, and to the Salvation Army in Causde, her grateful thanks for your kind message of sympathy.

AN OFFICER PROMOTED.

We desire to express our sympathy with those who monrn the loss of our comrade in arms, Lieut. Legge, of Newfoundland, who, like a bero, has fallen at the battle's front.

It took nearly a century of Methodisms existence before the unique influence that great revival exercised on the character of the whole British people became recognized by etsteamen and historians. The world moves faster now, and, to-day, the Imperial power exercised by the Salva-tion Army is recognized everywhere, more especially in our own country, which in many respects is a clear ten years ahead of some others of the same language.

The proof of the shove statement is evident from the character of the welcomes seconded the General wherever he has visited in the Dominion. His Western welcome will be all that it could be, and the fact of his addressing the Parliament of the West will orown the whole campaign from a social aspect.

The unavoidable absence of the Commandant in the West prevents his attendauce at the funeral of the late Sir John Thompson, to which he has been invited. Brigadler Jacobs, however, will pay the respects of the Salvation Army due to the honored dead.

The presence of our representative at the bler of one who was a member of so important a religious body in this country will, we trust, be considered an evidence of the absence in us of that bigotry which has so long delayed the Reign of Love.

We feel we have a mission amongst the Catabile population of Canada. Even as in those European countries, where the grace of God that brings salvation has been displayed through us, and in view of the recent magnificent reception accorded the General in Onebec, we are led to believe that the value of that work is better known, and wherever known, in all its disinterestedness, it is sure to be appreciated.

The Commandant has made an excelle choice of men in selecting Staff-Captain Jewer and Eneign McMillan to assist him on the General's campaign. They are both Salvationists of the first quality.

At lirst it seemed impossible to believe that our beloved comrade, Major Read, could be the victim of so serious a malady as that reported by the doctor attending him. Letter after letter, however, confirms the news, and we are forced to take active steps to secure him some place where the work less stringent upon him. Pray for him, dear comrades, and for his devoted wite as well.

There has been a mighty investigation, a tightening up, and a solemn pledging to even better oversight. We shall have to put our shoulders to the wheel again and lift our returns in some direction; but all round, the inspection has been most helpful, and on the wisele very encouraging. While this is being read, I shall be on the eve of once OUR more greeting the GENERAL'S General yonder at RETURN. The coast of the far away Pacilic. Our hearts swell at the thought. There is every prospect of a still more brilliant campaign there than that which composed the first tour. Pray that the General may have strength given him for the hereulean task set him to accomplish. This time he will visit in many cases two towns a day. Here is a complete list of the appointment of the entire tour. Circumstances may, of course, force us to aiter in some details.

UP TO DATE.

The opening of our new Shelter in Copeningen is fixed for 15th December. The event is exciting prodigious interest. "The newspapera," says Colonel Taylor, "have simply gone and on the Salvation Army."

Colonel Oliphant has just opened a new Sheiter in Groningen. As in Den-mark, the Dutch newspapers mani-lest a keen interest in our Social operations in the country.

Arrangements are being made for a party of officers from Denmark to commence operations in Lectand. They will sail probably on the 15th January next.

We regret to state that Commis-sioner Booth-Cilbburn is still very ill with a sinar attnet of brouddits. He is at present resting at Rouen, where the Marcelnie is holding a series of very successful meetings.

The Covernor of Mendoza and a mixed number of Protestants, Catholics, Jows, infidely, etc., have subscribed the expenses of a barracks there.

Here are the champion "Cry"-selling corps of the different countries: United States, Chicago I., 1,650; Holland, The Hugue I. 1,600; Great Britain, Clapton, 1,805; New Zealand, Dunedin, 1,022; Sweden, Stockholm I., 1,003; Australia, Charter's Towers, 967; Norwny, Christiania, 876.

Commissioner Ruhani and Colonel Raj Singh (Booth-Hollberg) have re-coived most cordial welcomes at Col-ombo, Ceylon and Bombay.

Major Birkenshaw has had a grand halleinjah send-olf from the Austra-lian Training Houe, and is cow hard at work in the supervision of Now Zealand Southern Division, under Colonol Balley.

Field and Divisional Officers.

Re LIGHT BRIGADE.

My Dear Comrades:

I am extremely anxious that the "Light Brigade" Scheme should be the success we have anticipated it would be, not only for the sake of the effort itself, so much as that its success means a great impetus being given to the Social Department of the Army's work. Those operations, I know, appeal very strongly to the sympathies of our officers and soldiers, as well as to those friends who know anything of the results of the same. I am sure, therefore, I have only to remind you that you can help us in this respect to secure your hearty co-operation to make the Scheme an unqualified success in your corps or district.

HOW YOU CAN HELP.

Give the Provincial Agent, as the representative of Headquarters, all the assistance you can. Assist him in getting the most suitable person possible for the position of Local Agent. See the Local Agents occasionally, and enquire if they need help. See that the boxes are circulated, and also that Local Agents make the collection of the boxes by the time the Provincial Agent is due at your corps. Make occasional reference from the platform to the Scheme, and endeavor to keep it before the attention of your

ALL OFFICERS ARE "EXPECTED TO DO THEIR DUTY,"

We confidently expect every officer will do his or her best to promote the interests of the Scheme. No more worthy object could be appealed for. I regret to have to say that a few cases have come to our notice, where officers have shown a careless indiffer ence towards the Scheme. In some cases the Provincial Agent has not received the hearty welcome and privileges due his position. In others, officers have hesitated to give one of their best people for a Local Agent, and seem to have had some suspicion that the Scheme was likely to prove injurious to the financial interests of the corps, and for that reason, have regarded the Provincial Agent as a kind of intruder. I am glad to say, however, that this has only happened in a few cases, and we quite expect that, as the object of the Scheme becomes more understood, that it will be taken up with enthusiasm by every officer, soldier, and friend.

Now, dear Comrades, I am relying upon you doing your best in this matter, and am sure that in the smallest effort made to help this department of our work, you will be abundantly blessed.

Praying God's blessing may be upon you, and that its impress may rest upon all your efforts in seeking to bring the lost and perishing back to Himself.

I remain

Yours in faithful affection,

CORNELIE BOOTH.

Britain's Rescue Annual.

Mrs. Bramwell Booth and if berheurers knew of their past for converes the total control of their past for converes the total control of their past for converes the total control of their poor women. A notable case of this heredity of evil was one whose mother, grand-mother, and great-grandmother had nil been like herself, the keepers of a house of lil-flume. But the Great Physician was sufficient to ence even these. The speaker told a wonder-till story of a girl who, led early ustray, had the door of her home shummed in her face, with her parontal outliss and curses against her and her baby, and after a desperate struggle, hungry and despairing, she put the little one into the river and was sentenced to death for infant-eide. The father who had slammed the door was in the court, and when he heard the verdet he nover spoke again. This was afterwards remitted to penal servitude for life, hut after she had been six years in prison, The Army's appeal was granted by the Hone Steretary and the girl was passed on to a Home, where she is to-day, nearly carning sufficient for her frying. The army's first request when she eneme out of the thingly interest of the Rescue Work, her living doon, was, might she went a little black for the father who had died six years before. The sweetness of success was mixed with tender pathos as Mrs. Booth told the tonching life-shory, and said how she wished all that afternoon might have the harvest of joy in their own soul at the London Rescue Annual.

ACENTS WANTED!

A LIGHT BRIGADER'S BALACLAVA.

Referring to Adjutant Southall's visit to Port Hope, Adjutant Magoe says:
The battle of Balaclava was not in it. Cannon to the right was a drunk. He stood to his foot and blazed away. Our here replied. Charge after charge was made. A

BOTTLE OF WHISKEY

appeared on the scane. A little of this drank on the spot gave fresh inspiration to the ganners. Boom went the cannon again. Our hero hatted, and with renewed vigor again charged. Awful to relate, cannon to left opened fire. (Another d. ink.) He rowed that it was ignorance moved the gunners on the right, and blazed away at the same time himself. Our hero looks pale, sets his tecth, and makes another dash. The gunner to the right is driven from his position, takes off his helmet, strikes a contrade across the head, and then does a ward-snoo. But the battle is not over. The gunner on the right reades creek to the left to apply amountion in the shape of which you his brother ganner.

THE BOTTLE FALLS.

THE BOTTLE FAILS.

Opt. Brady, of the advance guard, promptly captures it, and another polat is made. The gunner on the left boons again. Wants to know if officers of wood-yard kept those carpenter's tools brought by the little girl. Light Brigade replies. If so, would have them arrested for keeping a pawn shop. Our hero, a little baffied, but stands his ground. Again and again the Light Brigade dashes in through smokes and fumes of whiskey, sading the powers of bell. One by one the gunners were driven from their position, and shouts of victory rang again. We are delighted to report that since that galant and

Oh, wind desight and comfort for the soul to find
such rast!

And when the storms of doubt and four like Hone
round me rear,

I find key Savi or very mear, and eding to Him the
more.

In Three, my blowed Speciety, I shall always had a Friend,
I know that if a sait with me now and will be to the end;
In Thee is found sufficient gives, and none need go not ray.
Dut all may have this joy and punce who walk the united way. D. M. K.
